

Internationally recognised qualifications from your own home

Nisai Global School operates within the Nisai Virtual Academy (NVA). The NVA is a DfE registered, British independent school in the UK and a Section 41 approved provider of education. Additionally, we are recognised as a Cambridge International School.

We offer qualifications for students from the age of 11 to adulthood leading to Cambridge International accreditations.

What are these qualifications?

The Key Stage 3 programme is designed to prepare students for Cambridge IGCSE, AS Levels and A Level qualifications. Key Stage 3 is designed for 11 to 14 year olds and is the 1st step to preparing for an iGCSE course.

The IGCSE is a two-year course which is an internationally recognised qualification designed for students aged 14 to 16. You must have an IGCSE qualification before you can gain a Cambridge International AS/A Level.

Cambridge AS/A Levels are designed for 16 to 18 year old students and prepares students for university. You gain an AS Level qualifications in your first year and A Levels in your second year of study.

Technical and Vocational qualifications

Our strategic partnership with the National Open College Network (NOCN) means that we can offer a blended delivery of accredited vocational and technical qualifications that can be accessed from school, home or the workplace.

“
One of the best things about the NVA is the fact you can watch a recording of a lesson if you miss one through illness, which for me is often the case. The facility is also excellent for revision.”

Jack, Nisai student

How it works

Students log on to the NVA where they join their lesson classrooms, find homework assignments, socialise with other students and access their emails. All that is needed is access to the internet.

A support team in the form of tutors and subject teachers keep regular contact with each student and their family. Students are monitored by their attendance, behaviour and contribution/assignments during each lesson.
