

International Education Awards

At Worlddidac Asia 2021

20-22 October 2021, Bangkok, Thailand

Worlddidac Association and Didacta Association believe there are 4 pillars of learning that are incorporated into our everyday approach; learning to know, learning to do, learning to live together, and learning to be. Each of these four areas help develop internationally minded students that understand themselves but respect others for who they are, finding value in diversity.

International education, builds a strong foundation of cultural understanding. Learning about other cultures helps students understand different perspectives within the world in which we live. It helps dispel negative stereotypes and personal biases about different groups. Furthermore, this diversity makes one country a more interesting place to live in as people from diverse cultures contribute language skills, new ways of thinking, new knowledge, and different experiences.

Worlddidac Asia is launching '**International Education Awards**' to recognize schools in ASEAN who offer international education to help students increase their innovation, creativity and problem-solving skills as the result of cultural diversity being positively correlated to diverse experiences and perspectives.

Benefits of International Education

- **recognition** of the abundant diversity of cultures; **value** what other cultures offer;
- **respect** for the differences;
- **encouraging** the contribution of diverse groups;
- **celebrating** rather than just tolerating the differences in order to bring about unity through diversity.

The Worlddidac Asia's 'International Education Awards' can be made possible with support and blessing from the Worlddidac Association and Didacta Association

We invite schools who provide international education in ASEAN to participate in "**International Education Awards**" and be a part of international education community.

The prestige awards have 4S categories;

1) Best Practices in STEM Education

Diversity is vital to STEM disciplines. The Best Practices in STEM Education Award recognizes and celebrates teacher and school working to promote diversity in teaching and learning to inspire student in science, technology, engineering and mathematic. Making a real impact, sparking an enthusiasm for STEM subjects and careers.

2) **Best Smart Classroom**

The impact of technology change and diversity in teaching and learning has changed students' attitudes. Best Smart Classroom is an accreditation, which schools can attain by demonstrating excellence in their approach to the integration of learning and teaching and achieving effective practice in making digital technologies part of curriculum. We equally value our indoor and outdoor settings as we believe learning space maximize student potential.

3) **Best Student Services and Facilities**

The importance of school facilities in improving student performance. The award is presented to school campus where provide student facilities throughout the learning continuum, architecture can be used to inspire learners, educators, administrators, and campus alike.

4) **Best Safety, Sanitation and Health**

The COVID-19 pandemic will change nearly every aspect of school when it reopens and will require careful planning, all with safety against the virus in mind. Safety, Sanitation and Health in a school is about taking a sensible and proportionate approach to ensure the premises provide a healthy and safe school environment for students, teachers, staffs and visitors.

Entry is free and open to all schools who offer international education.

About International Education Awards

Worlddidac Asia invites schools in ASEAN who provide international education to participate in this programme, which are dedicated to their excellences in teaching and learning STEM, digital as well as students' wellbeing whilst building a strong foundation of cultural understanding. There is no limitation to these awards as long as the participating schools can provide us their motivations, approaches and best practices for other schools could have the opportunities to learn from them.

Our juried awards led by Worlddidac Asia presents the stories of their excellences to be displayed on the wall of exhibit stands at Worlddidac Asia 2021 at Sala Phra Kieo, Chulalongkorn University during October 20-22, 2021.

Our team will work directly with schools to give advice on all aspects of the awards process and preparation.
