**ECTS credits:** Finnish higher education institutions use the ECTS system (European Credit Transfer and Accumulation System) in measuring a student's workload. 1 ECTS credit=27 learning hours. In this system one full-time academic year is equivalent to 60 higher education credits. The ECTS system is a tool that helps to describe and compare study programmes and award higher education qualifications. It is used across the European Union and other collaborating European countries.

**Credits-based pricing:** TAMK is public university of applied sciences in Finland, the pricing of the services are based on workload of teachers and experts. Study programmes are priced based on amount of ECTS credits. For organizational partners, 1 ECTS credit = 3000 euro/per student group.

## Professional Teacher Education (Pedagogy qualification)

TAMK is one of the five Universities of Applied Sciences who are authorized to provide professional teacher qualification education in Finland. We offer up-to-date innovative pedagogy and localized know-how to global partners; the following services can be implemented fully online or in hybrid model:

### 1) Professional Teacher Education (60 ETCS)

The professional teacher education is based on recent research in educational science and applies the principles of participatory pedagogy and methods of exploratory learning. The education provides the pedagogical qualification required of teachers in Finland.

- **Level of study:** Postgraduate (Master's degree) level certificate
- **Length of study:** 1-year full-time study or 1.5-2 years part-time study
- **Pricing:** 180000 euro/ group. 25-30 participants per group.
- **Implementation:** Fully online or Hybrid
- **Tailor-made programmes:** if you are interested in certain modules or topics in this programme, please contact us for tailor-made services.

### 2) Professional Guidance Counsellor Education (60 ETCS)

Professional guidance counsellor education emphasizes the student's own activity, shared production and assessment of information, and development of new practices. The education provides qualification to work as a study counselor in vocational education, universities of applied sciences, primary school, and high school.

- **Level of study:** Postgraduate (Master's degree) level certificate
- **Length of study:** 1-year full-time study or 1.5-2 years part-time study
- **Pricing:** 180000 euro/ group. 25-30 participants per group.
- **Implementation:** Fully online or Hybrid
- **Tailor-made programmes:** if you are interested in certain modules or topics in this programme, please contact us for tailor-made services.

## Professional Teacher Education (Pedagogy qualification)

### 3) Online- Professional Special Needs Teacher Education (60 ETCS)

The professional special needs teacher education is based on inclusive pedagogy, which involves a reflective, inquisitive and development-oriented approach. Vocational special education training gives the qualification to work as a vocational special education teacher in vocational education and universities of applied sciences.

- **Level of study:** Postgraduate (Master's degree) level certificate
- **Length of study:** 1-year full-time study or 1.5-2 years part-time study
- **Pricing:** 180000 euro/ group. 25-30 participants per group.
- **Implementation:** Fully online or Hybrid
- **Tailor-made programmes:** if you are interested in certain modules or topics in this programme, please contact us for tailor-made services.

## Early Childhood Education and Care Teacher Education (degree, qualification)

### 1) Bachelor of Health Care, with focus on Social Pedagogy (210 ECTS)

English taught bachelor's degree programme in social services, which provide qualification to work as kindergarten teachers.

- **Level of study:** Full bachelor's degree programme
- **Length of study:** 3.5 years full time study
- **Tuition fees:** Full 9800 euro/student/academic year. 20-30 students per study group
- **Implementation:** Online learning + Onsite learning+ Practical Training
- **Tailor-made programmes:** if you are interested in certain modules or topics in this programme, please contact us for tailor-made services.
