Positive Leadership in Education

TRAINING PROGRAMME FOR PRINCIPALS AND EDUCATION LEADERS

The Positive Leadership in Education training programme provides leaders at all levels of the educational system with outstanding professional capital and a toolbox for building a positive and productive working, learning, and studying environment.

Participants gain an insight into the requirements for positive leadership in the educational environment. The programme equips leaders with the knowledge and skills necessary for successful high-level leadership in a globalised world. This professional development course is targeted at leaders who want to enhance their own personal leadership skills for cultivating the wellbeing, performance, and quality of their educational institution.

Participants will get a certificate of participation from the University of Eastern Finland. The course evaluation is based on online assignments, including quizzes, writing assignments, and discussion forums. The programme is provided online and/or by contact teaching, according to customer needs. Coursework will be assessed on a pass/fail basis.
